

On-Demand Prayer: Adding to Home Screen, Bookmarks, and Favorites

When accessing the On-Demand Prayer website on your mobile device (e.g. iPhone), you can add the site as a Bookmark, Favorite, and/or Add to Home Screen.

With the website open in Safari, click the Share icon in the toolbar to access the built-in Share Sheet. Here you can choose to Add Bookmark, Add to Favorites, and/or Add to Home Screen. After selecting your preference, you will see an entry in your Bookmarks, on the Favorites screen (i.e. new tab page in Safari), or on your home screen.
